PROJECTS WORKED ON

Project-1

Project Name : Metaveos Technology

Role : Full Stack Developer

Technology : REACT.JS, EXPRESS.JS, NODE.JS, MONGODB, JAVASCRIPT

Description : Metaveos Technology is an IT-based solutions company focused on delivering modern web and software development services. The company provides customized digital solutions such as enterprise web applications, data-driven dashboards, e-commerce platforms, and cloud-based systems using the latest technologies.

Responsibilities :

- Designed and developed responsive and interactive user interfaces using **React.js** and modern JavaScript (ES6+). Used Angular services for component-backend communication.
- Implemented **RESTful APIs** with **Express.js** and **Node.js** for secure and efficient data exchange between client and server.
- Integrated **MongoDB** for data storage, management, and retrieval with Mongoose ODM.
- Developed **authentication and authorization** mechanisms using JWT and bcrypt for secure user access.
- Handled **CRUD operations**, file uploads (via Multer), and backend validation for various modules.
- Collaborated with the design team to enhance **UI/UX** and ensure mobile-friendly, cross-browser compatibility.

Project-2

Project Name : youVA.com

Role: Angular Developer

Technology: HTML5, CSS3, BOOTSTRAP, TYPESCRIPT, ANGULAR 15, JSON

Description: An e-commerce platform offering features like product listing, cart management, user authentication, and admin CRUD operations — all built with a responsive design.

Responsibilities :

- Integrated Angular UI with JSON APIs using data binding.
- Built services for backend communication and HTTP requests.
- Created dynamic forms with validation using FormGroup and FormControl.
- Displayed product data and images fetched from the API.

DECLARATION

I hereby declare that all the statements made in the above curriculum vitae are correct to the best of my knowledge and belief.
